# 10 things i love

**MARTHA STURDY** pioneered resin furnishings through the 1990s. Her Vancouver-based practice has since evolved into an international aesthetic force. Recently, the Sturdy furniture brand has been accompanied by artworks, too. Her latest work, Reflections, is a totem-like series of charred wood pieces, which are being showcased at this year's Tokyo Design Week (and which were previewed at our Designers of the Year event this fall). Meanwhile, her Vancouver studio remains a hotbed of design innovation—watch for her illuminated resin chairs. [marthasturdy.com](http://marthasturdy.com)
